

Ordering Fingerprint Jewelry

If you already have your loved ones print or you've obtained it from a funeral director, please skip to “C”.

A.

1. If you are in the **Rochester, NY** area we can obtain your fingerprint(s) in our store by using our digital fingerprint device. Takes 2 seconds. No Ink.
2. Using the Ink Strip we provided or using your own ink pad: Press finger, hand, or foot on ink paper/pad to coat well with ink.

B.

1. Carefully press finger, hand, or foot on a piece of white paper. The first time you do this the print will probably be too dark.
2. Press on another area of the paper a few times. You will notice that the print becomes lighter each time. You can repeat this process until you obtain a satisfactory result. (See picture)
3. If applicable, you may often obtain a loved one’s print from your funeral director.

C.

Scan the paper into your computer. If you do not have a scanner please proceed to **D – you can mail your prints to us**. (See “Contact Us” for address). If using a scanner, please scan the entire page of prints so that we can choose the best quality. If you scan, please send us the highest resolution image(s) possible.

Step D.

Select a piece of FINGERPRINT JEWELRY and upload your file by selecting the “upload file box”. If you have any questions, please **email** us: info@silversecrets.net or call us at the number listed in the “contact us” section and shown in the product description.
